

# Medical School Letter of Recommendation

To,

Name,

Address,

Date,

Dear ----- [Name and title of the recipient],

I am pleased to write this letter of recommendation for [student name] as a part of his application for the [institute name]. He has been my student for three years in my class of [subject name]. As [student name]'s teacher, I found him to be extremely passionate about his dream to become a doctor.

[Student name] is a hard-working student who is dedicated to his dream. He approaches all the classes and all the course material with a curiosity which makes him intellectual but on a completely different level.

Whenever he gets stuck in a problem or a complex theory, he is seen approaching the problem head-on. His attention to detail is also a quality which will make him a great doctor someday.

Last year we started a drive with an NGO for the welfare of the underprivileged kids. [Student name] has been an enthusiastic participant in this drive. He was seen observing the nurses minutely and noticing everything that was being done. His commitment to the field and hard work in achieving his goal makes him the perfect candidate for your institution.

Given a chance he can make you proud too. If I can answer any more questions, please feel free to call me on [phone number] or email me on [email ID].

Sincerely,
